A MOUNTAIN OF WELLNESS

FRONTE PLOSE SPA

FROM ORGANIC

FRUIT

**BIO
ORGANIC**

The path to well-being is easy to follow; nature shows us the way. We just need to pay attention to simple things and listen to our senses.

At Fonte Plose, we have been paying attention to this since 1952, when our founder, Giuseppe Fellin, brought the first 'bottle' of Acqua Plose down from Mount Plose to the valley.

From that first walk in the mountains and those pristine places, we inherited a lot. Everything. Genuineness, purity, and a deep love for the land and its fruits.

You can find all of this, intact, in every bottle of BioPlose products today.

Juices and nectars from organic farming, iced teas, and 100% organic drinks. A natural range, strictly in glass, born from the same mountains that remind us every day of the importance of preserving what we hold most precious: the goodness of nature.
